STATE OF ARKANSAS

The State of Arkansas, which is located in the south-central part of the United States, is comprised of seventy-five counties. In order to carry out the responsibilities of the Job Training Partnership Act, the State has been divided into nine Service Delivery Areas. These areas are: the City of Little Rock; the Central Arkansas (excluding the City of Little Rock) Area; the North Central Area; the Northeast Area; the Northwest Area; the Southeast Area; the Southwest Area; the West Central Area; and the Western Area.

There are four areas in the state designated as Metropolitan Statistical Areas (MSA's). These areas are Fayetteville-Springdale, Fort Smith, Little Rock-North Little Rock, and Pine Bluff. In addition to these Metropolitan Statistical Areas three counties in the State are included in two other Metropolitan Statistical Areas. Little River and Miller counties are included in the Texarkana, Texas-Arkansas MSA and Crittenden County is included in the Memphis, Tennessee-Arkansas-Mississippi MSA.

According to the 1980 census the total civilian population of the State was 2,281,693. Of this number 1,186,087, or 52 percent, were females. The number of whites totaled 1,881,555, or accounted for over 82 percent of the total. During fiscal year 1985 the total civilian population is projected to reach 2,487,100 and during fiscal year 1986 the total is expected to be about 2,530,233.

In 1980 personal income in the State totaled \$16,312.7 million. Projections indicate that in 1985 the total will be about \$25,415.8 million and in 1986 the figure should be around \$27,349.3 million. Per capita income in 1980 was \$7,097. During 1985 per capita income is expected to increase to \$10,219 and during 1986 it should be approximately \$10,809.

The state's total civilian labor force numbered 940,880 in fiscal year 1980. Total unemployment stood at 65,147 and the total unemployment rate was 6.9 percent. It has been projected that the total civilian labor force will increase to 1,066,000 during fiscal year 1985, total unemployment will number 84,214, and the total unemployment rate will be about 7.9 percent. During fiscal year 1986 the total civilian labor force has been estimated to be 1,088,700, total unemployment has been projected at 86,007, and the total unemployment rate will remain at 7.9 percent.

It has been estimated that 438,798 persons, or 22.7 percent of the state's civilian population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1985. During fiscal year 1986 the estimated number of economically disadvantaged 14 years of age and over is expected to be increased to around 446,406. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

TABLE 11
POVERTY GUIDELINES FOR ECONOMICALLY DISADVANTAGED
CONTINENTAL UNITED STATES
FISCAL YEAR 1985

Definition and Poverty Guidelines

The Employment and Training Administration defines an economically disadvantaged person as an individual who:

1. Receives, or is a member of a family which receives, cash welfare payments under a Federal, State, or Local Welfare Program;
2. *Has, or is a member of a family which has, received a total annualized family income for the six (6) months prior to application, which, in relation to family size, was not in excess of the higher of:
 - (a) the poverty level determined in accordance with criteria established by the Office of Management Budget; or,
 - (b) 70% of the lower living standard income level;
3. Is receiving food stamps pursuant to the Food Stamp Act of 1977;
4. Is a foster child on behalf of whom State or Local government payments are made; or,
5. In cases permitted by Regulations of the Secretary, is an adult handicapped individual whose own income meets the requirements of 1. or 2. but who is a member of a family whose income does not meet such requirements.

Under 1984 poverty guidelines, income levels for a family of one through eight persons for the continental United States are:

*OMB ^{1/} Poverty Level Income		70% Lower Living Standard Income Level		
Family Size	Poverty Guideline	Family Size	Metro Area	Non-Metropolitan Area
1	\$ 4,980	1	\$ 4,980	\$ 4,980
2	6,720	2	6,720	6,720
3	8,460	3	9,010	8,650
4	10,200	4	11,120	10,670
5	11,940	5	13,130	12,600
6	13,680	6	15,350	14,730
7	15,420	7	17,570	16,860
8	17,160	8	19,790	18,990
For each additional member, add:		For each additional member, add:		
\$ 1,740		\$ 2,200 \$ 2,130

Source: Arkansas Employment Security Division, Research and Analysis Section.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

CITY OF LITTLE ROCK SERVICE DELIVERY AREA

The city of Little Rock is located in the geographical center of the State. It is the central city of the Little Rock-North Little Rock Metropolitan Statistical Area, the capitol city of the State of Arkansas, and the seat of county government of Pulaski county.

According to the 1980 census the city had a total civilian population of 158,282. Females accounted for approximately 54 percent of the population. Nearly 67 percent of the population was white. It has been projected that the population will reach 174,212 during 1985 and 177,539 during 1986.

Total personal and per capita income estimates are not available for the city, however, estimates for Pulaski county should be reasonably representative. Total personal income for Pulaski county stood at \$3,228.1 million in 1980. This figure is projected to reach \$5,029.5 million in 1985 and \$5,412.1 million during 1986. In 1980, per capita income was \$9,414. In 1985, per capita income is expected to rise to about \$13,431 and in 1986 it should reach \$14,183.

In 1980, the total civilian labor force stood at 78,624, total unemployment numbered 3,970, and the unemployment rate was 5.0 percent. It has been projected that the total civilian labor force will increase to about 95,300 by 1985 and then decline to around 89,534 in 1986. Unemployment is expected to increase to 5,718 in 1985 and then decline to 5,372 in 1986. The unemployment rate is expected to be about 6.0 percent in both 1985 and 1986.

Approximately 22,076, or 16.3 percent of the population in the city 14 years of age and over will be economically disadvantaged and eligible for programs under the Job Training Partnership Act (JTPA) in fiscal year 1985. During fiscal year 1986 this number will increase slightly to 22,458.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

SERVICE DELIVERY AREA TOTAL		5,169	825

Source: Arkansas State Department of Education.

Note: The code numbers and titles of the vocational-technical education programs and occupations used in this table are according to the U.S. Office of Education Classification System.

CENTRAL SERVICE DELIVERY AREA

Six counties located in the central part of the State make up the Central Service Delivery Area. These counties are: Faulkner; Lonoke; Monroe; Prairie; Pulaski (less the City of Little Rock); and Saline. The city of Little Rock is not included in this Service Delivery Area (SDA) because the city is a separate SDA.

According to the 1980 census, the total civilian population of the area was 334,082. Nearly 52 percent of the population is female and over 85 percent of the total are white. Projections indicate that the population will increase to 382,110 by 1985 and will rise to 391,191 in 1986.

In 1980, total personal income in the area was \$4,267.6 million. In 1985 and 1986 personal income is expected to total \$6,649.0 million and \$7,154.8 million respectively. Per capita income in 1980 was \$8,503. By 1985 per capita income is expected to reach \$11,952 and by 1986 it should be about \$12,580.

The area's total civilian labor force numbered 147,428 in 1980, unemployment stood at 8,156 and the unemployment rate was 5.5 percent. Projections indicate that during 1985 the total civilian labor force will increase to 160,425, unemployment will rise to 11,069, and the unemployment rate should be about 6.9 percent. A significant gain in total employment and a slight increase in unemployment should raise the total civilian labor force to 171,239 in 1986. Unemployment is expected to number about 11,815 while the unemployment rate will probably remain at its 1985 level of 6.9 percent.

Estimates indicate that approximately 48,472, or 16.5 percent, of the area's civilian population 14 years of age and over will be economically disadvantaged in fiscal year 1985 and will be eligible for programs under the Job Training Partnership Act (JTPA). During fiscal year 1986 the number of economically disadvantaged 14 years of age and over is expected to reach 49,312.

Symbols Used in Table: A dash "—" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

* Asian and Pacific Islander.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.*
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.*
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.*

** Includes the City of Little Rock Service Delivery Area. Data for the City of Little Rock only is not available.*

NORTH CENTRAL SERVICE DELIVERY AREA

Ten counties, located in the North Central part of the state, make up the North Central Service Delivery Area. These counties are: Cleburne; Fulton; Independence; Izard; Jackson; Sharp; Stone; Van Buren; White; and Woodruff.

According to the 1980 census, the total civilian population of the area was 188,368. Females accounted for a little over 51 percent of this number, while nearly 95 percent of the total was white. Projections indicate that the total civilian population will reach 209,123 during 1985 and 213,616 during 1986.

Total personal income in the area was \$1,164.3 million in 1980. It is expected to increase to \$1,813.9 million in 1985 and to \$1,952.1 million in 1986. Per capita income in 1980 stood at \$6.125. During 1985 per capita income has been projected to reach \$8,674 and by 1986 it should be about \$9,138.

In 1980, the area's total civilian labor force numbered 71,708 and total unemployment was 6,402 or 8.9 percent of the total civilian labor force. During fiscal year 1985 the total civilian labor force is expected to increase to 81,850, total unemployment is anticipated to rise to 7,939, and the total unemployment rate should be about 9.7 percent. Further increases are expected to raise the total civilian labor force to 83,745 in fiscal year 1986. Total unemployment is estimated to rise to around 8,458, and the total unemployment rate is expected to be about 10.1 percent.

It has been estimated that 41,972, or 25.3 percent, of the area's civilian population 14 years of age and over will be classified as economically disadvantaged in fiscal year 1985. During fiscal year 1986 the number of persons in this group will increase to 42,700. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

* Asian and Pacific islander.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.*
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.*
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.*

NORTHEAST SERVICE DELIVERY AREA

The Northeast Service Delivery Area is comprised of twelve counties located in the Northeast part of the State. These counties are: Clay; Craighead; Crittenden; Cross; Greene; Lawrence; Lee; Mississippi; Phillips; Poinsett; Randolph; and Saint Francis. One county, Crittenden, is also included in the Memphis, Tennessee-Arkansas Metropolitan Statistical Area.

The 1980 census lists the total civilian population of the area at 384,643. Females numbered 201,717, a little over 52 percent of the total. Whites accounted for over 76 percent of the total. It has been projected that the total civilian population will increase to 405,434 by 1985 and 409,202 during 1986.

In 1980, personal income in the area totaled \$2,440.8 million. During 1985 it is expected to rise to \$3,802.9 million and during 1986 a total of \$4,092.1 million has been projected. Per capita income, which stood at \$6,299 in 1980, is expected to reach \$9,380 in 1985 and \$10,000 in 1986.

The area's total civilian labor force numbered 151,736 in 1980. Total unemployment stood at 13,586 which gave the area a 9.0 percent unemployment rate. During fiscal year 1985 the total civilian labor force is expected to increase to about 178,125 while total unemployment should rise to around 17,100, raising the area's total unemployment rate to 9.6 percent. Continuing increases should push the total civilian labor force to 181,218 and total unemployment to 17,759 during fiscal year 1986, thus raising the area's total unemployment rate to 9.8 percent.

It has been estimated that 91,617, or nearly 30 percent, of the area's population 14 years of age or over will be classified as economically disadvantaged in fiscal year 1985. This group of persons is expected to increase to about 93,205 in fiscal year 1986. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

* Asian and Pacific Islander.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.*
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.*
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.*

NORTHWEST SERVICE DELIVERY AREA

Nine counties located in the Northwest part of the State make up the Northwest Service Delivery Area. The counties are: Baxter; Benton; Boone; Carroll; Madison; Marion; Newton; Searcy; and Washington. Washington county also makes up the Fayetteville-Springdale Metropolitan Statistical Area.

The total civilian population of the area stood at 287,467 according to the 1980 census. Females numbered 146,410 and accounted for nearly 51 percent of the total. Nearly 98 percent, or 281,452, of the area's total civilian population was white according to the census. By fiscal year 1985 the total civilian population is expected to increase to 331,474 and by fiscal year 1986 it is projected to reach 341,106.

Personal income in the area totaled \$2,020.2 million in 1980. Projections indicate that it will rise to \$3,147.6 million by 1985 and \$3,386.9 million by 1986. Per capita income in the area stood at \$5,685 in 1980 and is expected to increase to \$9,496 in 1985 and \$9,929 in 1986.

The area's total civilian labor force numbered 120,709 in 1980. A total of 7,134 workers were unemployed leaving the area with a 5.9 percent unemployment rate. During fiscal year 1985 the labor force is projected to reach 135,975, total unemployment should number about 8,023, and the total unemployment rate is expected to be around 5.9 percent. Projections indicate that during fiscal year 1986 the total civilian labor force will continue to increase and will number about 142,438. Total unemployment is also expected to continue increasing and should reach 8,404, however, the unemployment rate will probably remain around 5.9 percent.

Projections indicates that 51,229, or nearly 20 percent, of the area's 267,271 civilian population 14 years of age and over will be classified as economically disadvantaged in fiscal year 1985. During fiscal year 1986, the number of economically disadvantaged 14 years of age and over is expected to increase to 52,118. These persons will be eligible for programs under the Job Training Partnership Act (JTPA).

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.*
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.*
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.*

SOUTHEAST SERVICE DELIVERY AREA

The Southeast Service Delivery Area is comprised of ten counties located in the southeast part of the State. The ten counties included in this area are: Arkansas; Ashley; Bradley; Chicot; Cleveland; Desha; Drew; Grant; Jefferson; and Lincoln. The Pine Bluff Metropolitan Statistical Area, which is made up of Jefferson county, is located in the area.

The civilian population of the area totaled 244,735 according to the 1980 census. Of this number 125,882, or over 51 per cent, were female and 161,354, or nearly 66 percent, of the total was white. By fiscal year 1985 the total civilian population is expected to increase to 253,823 and by fiscal year 1986 the total is projected to be around 255,685.

Personal income in the area totaled \$1,628.6 million in 1980. By 1985 the total is anticipated to rise to about \$2,537.3 million and by 1986 it should be about \$2,730.3 million. In 1980 per capita income stood at \$6,620. During fiscal year 1985 and fiscal year 1986, per capita income is projected to reach \$9,996 and \$10,678 respectively.

In fiscal year 1980, the total civilian labor force in the area numbered 94,266. Total unemployment stood at 7.035 and the total unemployment rate was 7.5 percent. Projections indicate that by fiscal year 1985 the total civilian labor force will increase to 104,750, total unemployment will drop slightly to 7,018, and the total unemployment rate will decline to about 6.7 percent. By fiscal year 1986 a slight drop is expected to lower the total civilian labor force to 104,750. This decline combined with a significant increase should push total unemployment to 9,349 and raise the area's total unemployment rate to 9.0 percent.

It has been projected that 54,706, or 28 percent, of the area's 195,092 civilian population 14 years of age and over will be classified as economically disadvantaged in fiscal year 1985. In fiscal year 1986 this number is expected to be about 55,654. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

**Asian and Pacific Islanders.*

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

SOUTHWEST SERVICE DELIVERY AREA

The Southwest Service Delivery Area is comprised of twelve counties located in the southwest part of the State. The counties included in the area are: Calhoun; Columbia; Dallas; Hempstead; Howard; Lafayette; Little River; Miller; Nevada; Ouachita; Sevier; and Union. Two counties, Little River and Miller, are also included in the Texarkana, Texas-Arkansas Metropolitan Statistical Area.

According to the 1980 census the total civilian population of the area was 246,445. Females accounted for 128,999, or slightly over 52 percent of the total population. A total of 175,390, or a little over 71 percent, of the population was white. By fiscal year 1985 the total civilian population is expected to reach 255,513. Additional gains should raise the total to 257,372 by fiscal year 1986.

Personal income in the area totaled \$1,739.3 million in 1980. During fiscal year 1985 total personal income is projected to rise to \$2,709.8 million and during fiscal year 1986 the total is expected to be around \$2,916.1 million.

During fiscal year 1980, the area's total civilian labor force numbered 969,760, total unemployment stood at 6,286, and the total unemployment rate was 6.5 percent. It has been projected that during fiscal year 1985 the total civilian labor force will increase to 114,600, total unemployment will be around 7,678, and the total unemployment rate will be about 6.7 percent. During fiscal year 1986 further increases should raise the total civilian labor force to 117,777. Total unemployment is expected to increase to 8,127 and the total unemployment rate should be about 6.9 percent.

Estimates indicate that during fiscal year 1985 approximately 50,262, or slightly over 25 percent, of the area's population 14 years of age and over will be classified as economically disadvantaged. During fiscal year 1986 about 51,133, or over 25 percent, of the population 14 years of age or over will be economically disadvantaged. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

**Asian and Pacific Islanders.*

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

WEST CENTRAL SERVICE DELIVERY AREA

The West Central Service Delivery Area is composed of ten counties located in the west central part of the State. These counties are: Clark; Conway; Garland; Hot Spring; Johnson; Montgomery; Perry; Pike; Pope; and Yell.

According to the 1980 Census the area's total civilian population numbered 238,966. Of this total 123,281, or nearly 52 percent were female and 218,018, or slightly over 91 percent of the total was white. Projections for fiscal year 1985 indicate that the total civilian population will reach about 264,459 and by fiscal year 1986 the total will be approximately 269,896.

In 1980 personal income in the area totaled \$1,641.5 million. During 1985 the total is expected to reach \$2,557.6 million and in 1986 it should be around \$2,752.0 million. Per capita income in 1980 stood at \$6,848. It is expected to increase to \$9,671 during 1985 and \$10,197 in 1986.

The area's total civilian labor force stood at 97,447 in 1980. Total unemployment was 6,883 and the total unemployment rate was 7.1 percent. During fiscal year 1985 the total civilian labor force is expected to reach 108,950, total unemployment should rise to 9,914 and the total unemployment rate will probably be around 9.1 percent. By fiscal year 1986 the total civilian labor force should number about 111,355, total unemployment is expected to number around 9,020 and the total unemployment rate should be about 8.1 percent.

Projections indicate that during fiscal year 1985, a total of 44,282, or slightly over 21 percent of the area's 209,992 population 14 years of age and over will be classified as economically disadvantaged. By fiscal year 1986 this number is expected to increase to around 45,050. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") identifies estimated values for aggregated areas with partial suppression.

*Asian and Pacific Islanders.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

WESTERN SERVICE DELIVERY AREA

The Western Service Delivery Area is comprised of six counties located in the western area of Arkansas. These counties are: Crawford; Franklin; Logan; Polk; Scott; and Sebastian. Two counties, Crawford and Sebastian, are included in the Fort Smith, Arkansas-Oklahoma Metropolitan Statistical Area.

The area's total civilian population numbered 193,398 according to the 1980 Censuses. Approximately 99,565, or over 51 percent of the total, was female while 182,779, or over 94 percent of the total was white. During fiscal year 1985 the total civilian population is expected to increase to 210,967 and by fiscal year 1986 it is expected to be 214,626.

In 1980, personal income in the area totaled \$1,410.6 million. During 1985 the total is expected to be about \$2,197.7 million and during 1986 it is projected to reach \$2,365.0 million. Per capita income in 1980 was \$7,256. It is expected to reach \$10,418 in 1985 and in 1986 it should be about \$11,020.

The area's total civilian labor force numbered 82,196 in fiscal year 1980. Total unemployment was 5,695, while the total unemployment rate stood at 6.9 percent. During fiscal year 1985 the total civilian labor force is expected to increase to 86,025, total unemployment should be about 7,742, and the total unemployment rate will probably be around 9.0 percent. During fiscal year 1986 the total civilian labor force should increase to around 87,511, total unemployment is expected to drop to 7,351, and the total unemployment rate should be about 8.4 percent.

Projections indicate that during fiscal year 1985 approximately 34,182, or nearly 21 percent, of the area's population 14 years of age or over will be classified as economically disadvantaged. Very little change is expected during fiscal year 1986 when the number is expected to be about 34,776. These economically disadvantaged persons will be eligible for programs under the Job Training Partnership Act (JTPA).

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

a) Economically Disadvantaged but not eligible for JTPA programs.

b) Not included in JTPA Eligible Population; eligible for limited participation.

c) Hispanics may be included in all races.

d) INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

- (1) Included in the Vietnam Veterans and Other Veterans estimates.
- (2) Includes only those individuals expected to be placed on probation in fiscal year 1985. The number in fiscal year 1986 is expected to be about the same as in fiscal year 1985. No estimates of the number of parolees are included. Approximately 85 percent of the probationers are expected to be economically disadvantaged.
- (3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1984 is being used for fiscal years 1985 and 1986 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

FAYETTEVILLE-SPRINGDALE METROPOLITAN STATISTICAL AREA

Beginning January 1, 1985 the Fayetteville-Springdale Standard Metropolitan Statistical Area (SMSA), which currently consists of Benton and Washington counties, will be known as the Fayetteville-Springdale Metropolitan Statistical Area (MSA) and will consist of Washington County only. Beginning with January 1985 all statistical data developed for the area will reflect the new area definition. For comparison purposes statistical data for 1980, 1985, and 1986, contained in the following tables, have been presented to represent the new area definition. The area derives its name from the adjoining cities of Fayetteville and Springdale which have a combined population of over 50,000.

According to the 1980 Census the total civilian population of the newly defined Metropolitan Statistical Area (MSA) was 100,412. The population was about equally divided among males and females. Almost 97 percent of the population was white. It has been estimated that the total civilian population will increase to about 115,955 during fiscal year 1985 and is expected to reach 119,322 during fiscal year 1986.

In 1980 total personal income in the area was \$697.5 million. In 1986 income in the area is expected to be \$1,086.7 million and in 1986 should amount to \$1,169.4 million. Per capita income in the area in 1980 was \$6,935. It is expected to increase to \$9,372 in 1985 and to \$9,800 in 1986.

The total civilian labor force in the area numbered 46,039 in fiscal year 1980. Total unemployment was 2,359 and the total unemployment rate stood at 5.1 percent. During fiscal year 1985 the total civilian labor force is expected to be around 48,175, total unemployment should increase to about 2,505, and the total unemployment rate will probably be around 5.2 percent. Fiscal year 1986 projections indicate that the total civilian labor force will number about 50,100, total unemployment will be near 2,605, and the total unemployment rate is expected to remain about 5.2 percent.

FORT SMITH METROPOLITAN STATISTICAL AREA

Beginning January 1, 1985 the Fort Smith Arkansas-Oklahoma Standard Metropolitan Statistical Area (SMSA), which currently consists of Crawford and Sebastian Counties in Arkansas and LeFlore and Sequoyah Counties in Oklahoma, will be known as the Fort Smith, Arkansas-Oklahoma Statistical Area (MSA) and will consist of Crawford and Sebastian Counties in Arkansas and Sequoyah County in Oklahoma. Beginning with January 1985 all statistical data developed for the area will reflect the new area definition. For comparison purposes statistical data for 1980, 1985, and 1986, contained in the following tables, have been presented to represent the new area definition unless otherwise noted.

According to the 1980 Census the total civilian population in the MSA was 162,620. Of this number 84,134, or nearly 52 percent, were female and 147,922, or nearly 91 percent of the total, were white. During fiscal year 1985 the total civilian population is expected to increase to around 178,095 and during fiscal year 1986 the total number should be about 181,330.

In 1980 personal income in the MSA totaled \$1,429.8 million and per capita income was \$6,996. Projections for the entire MSA for 1985 and 1986 are not available.

The total civilian labor force in the Metropolitan Statistical Area numbered 70,850 in 1980, total unemployment was 4,592 and the unemployment rate was 6.5 percent. During fiscal year 1985 the total civilian labor force is expected to reach 76,025, total unemployment will rise to about 6,842, and the total unemployment rate should be around 9.0 percent. By fiscal year 1986 the total civilian labor force has been projected to be about 77,701, total unemployment is expected to be around 6,294 and the total unemployment rate should be about 8.1 percent.

3) Includes Asians and Pacific Islanders.

LITTLE ROCK-NORTH LITTLE ROCK METROPOLITAN STATISTICAL AREA

Beginning January 1, 1985 the Little Rock-North Little Rock Standard Metropolitan Statistical Area (SMSA), which currently consists of Pulaski and Saline Counties, will be known as the Little Rock-North Little Rock Metropolitan Statistical Area (MSA), and will consist of Faulkner, Lonoke, Pulaski, and Saline Counties. Beginning with January 1985 all statistical data developed for the area will reflect the new area definition. For comparison purposes statistical data for 1980, 1985, and 1986 contained in the following tables, have been presented to represent the new area definition.

According to the 1980 Census the total civilian population of the MSA was 468,189. Of this number 245,699, or a little over 52 percent, of the total was female, whites accounted for 373,376, or nearly 80 percent of the population. During fiscal year 1985 the total civilian population is projected to reach 531,945 and during fiscal year 1986 a level of 544,313 is expected.

In 1980 personal income in the MSA totaled \$4,127.7 million. Projections indicate that the total should be about \$6,431.1 million in 1985 and \$6,920.3 million in 1986. Per capita income in 1980 was \$8,699. Increases should raise per capita income to around \$12,090 during 1985 and \$12,714 in 1986.

In fiscal year 1980 the total civilian labor force in the MSA numbered 217,300, total unemployment stood at 11,501, and the total unemployment rate was 5.3 percent. During fiscal year 1985 the total civilian labor force is expected to reach 246,550, total unemployment should be about 15,533, and the total unemployment rate will be around 6.3 percent. Continued increases are projected to raise the total civilian labor force to about 251,714, total unemployment to 16,110, and the total unemployment rate to 6.4 percent during fiscal year 1986.

PINE BLUFF METROPOLITAN STATISTICAL AREA

Beginning January 1, 1985 the Pine Bluff Standard Metropolitan Statistical Area (SMSA) will be known as the Pine Bluff Metropolitan Statistical Area (MSA). The area consists of Jefferson County which is located in the southeast part of the State.

The 1980 Census lists the total civilian population of the MSA at 90,525. Approximately 46,582, or over 51 percent, of the total was female and 53,094, or nearly 59 percent of the total was white. Projections indicate that during fiscal year 1985 the total civilian labor force will be about 93,368 and during fiscal year 1986 the total is expected to number approximately 93,907.

In 1980 personal income in the MSA totalled \$680.8 million. Projections for 1985 indicate that the total will reach \$1,060.7 million and in 1986 should increase to about \$1,141.4 million. Per capita income for the MSA in 1980 was \$7,451. It is expected to be about \$11,360 in 1985 and \$12,155 in 1986.

The total civilian labor force in the MSA in 1980 numbered 36,289, total unemployment stood at 2,763, and the total unemployment rate was 7.6 percent. During fiscal year 1985 the total civilian labor force has been projected to reach 40,375, total unemployment will be about 3,392, and the total unemployment rate should be around 8.4 percent. Little change is expected in the total civilian labor force in fiscal year 1986. A slight increase from fiscal year 1985 is expected to raise the total civilian labor force to 40,382. Total unemployment is projected to drop slightly to about 3,311 and should lower the total unemployment rate to around 8.2 percent during fiscal year 1986.

Source: Report 3, *Social Indicators for Planning and Evaluation, 1980 Census of Population*, Lawrence Berkeley Laboratory, University of California, Berkeley, California.

Note: The 1980 poverty levels were based on 1979 income.

* Asian and Pacific Islander.

Symbols Used in Table: A dash "-" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. Estimated values for aggregated areas with partial suppression are identified by an "@" symbol (which can be read as "approximately").
